

StarwalkerVisions & Star Soul Wisdom invite you to:

A Sacred Pilgrimage into the Triple Goddess Within

This is a sacred journey created for women only, to delve deeper into their feminine archetypes. We will visit ancient sacred sites throughout Paris and the south of France that will include monuments, churches, pagan caves, and ancient springs. The teachings will combine shamanic astrological influences in your individual birth chart (using your feminine birth signs-Moon, Venus & Black Moon Lilith), journaling, meditating, oracular readings, and your nightly dreams. This energy will be enhanced throughout this ancient land of the Celts, Roman influences, the Black Madonna Mysteries and the Goddess rite influences.

Please note this pilgrimage will have some walking/light hiking and initially at the beginning of the itinerary, a vigorous daily schedule. It is NOT a Knights Templar, Cathar, or singularly a Mary Magdalene journey. It is a personal pilgrimage, spiritual journey, into the sacred archetypes, symbology, and images of the Divine Feminine within each of us.

There will be daily group meetings to discuss and share the day's events—how it impacts your personal chart, or the oracular readings given for clarity and thought. There will be time for private contemplation at many of the churches/sites, as well as daily teachings, and meditations given at the sites, helping you to know why we have chosen them. There will be opportunities for relaxing; fun moments at a spa or village market should you desire; and personal ah ha moments, as well as reflection along the way.

We ask that you understand this is a group pilgrimage, and as such we form a family of 12 women for our time together. Patience, humor, honesty, sharing, mindfulness listening, and being open to each other's strengths and foibles is imperative. Knowing that we may each have a moment of impatience, tears, or discomfort is important to accept within the group dynamics. Both of your co-leaders are there to support you throughout. **This journey accommodates only 10 participants.**

Jennifer Landry is a seasoned shamanic astrologer, having studied with teachers in both France & the U.S. Her astrological counseling delves deeply into the mysteries of the divine feminine unveiling these aspects through an archetypal and mythical framework. A French speaker with dual citizenship she has traveled France extensively.
